1. INTRODUCTION

The initiative aims at creating a platform on which supervisor can, for example View assigned groups, view group members and assess groups according to their project presentations.

The Final Year Project Management System (FYPMS) is a web-based application developed for management of students' academic in case of their final year project under department of ICT at CBE (Dar Es Salaam Campus). FYPMS provides all necessary functionalities for tracking and managing both Student and Supervisor at once and all their management activities. It is a one stop centre for students to perform their Final Year Project Related activities and retrieve data related to their activities.

2. PURPOSE

The purpose of this user manual is to provide detailed instructions and procedures for students to navigate and understand how the student module works based on predefined student roles in FYPMS. This will improve help them to use the system efficiently.

3. PREREQUISITE

For a student to be able to use the student module in FYPMS, the following requirements must be fulfilled:

- 3.1. Must be a registered student
- 3.2. Must have valid username and password
- 3.3. Must be connected to the internet

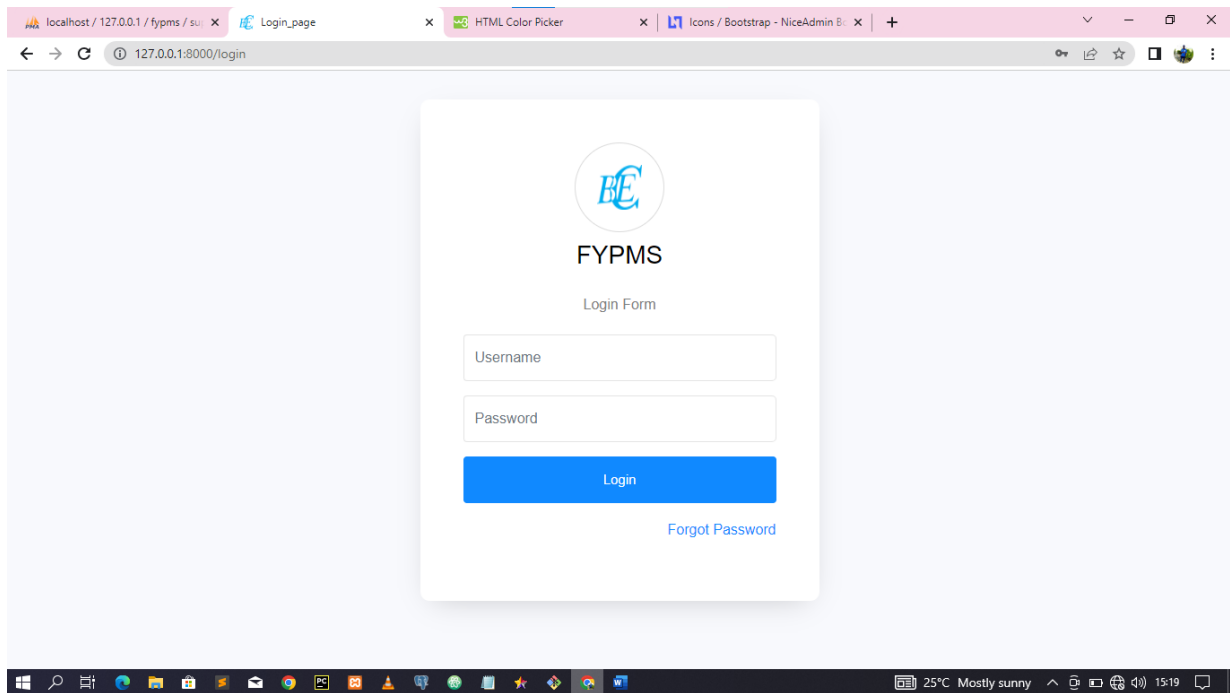

4. NEW FYPMS USERS

New supervisor should use their email as "Username." And Default password will be sent to their email After being registered at the coordinator's office, a supervisor will be able to use the emailed password. He/she will use the email address as his/her username and password to login to the system. After a success login a system will prompt you to change your password. The new password must contain not less than eight (8) characters in which capital letters, small letters, special symbol and numbers must be used. 5.

5. LOGIN TO FYPMS

To access and login to FYPMS, visit CBE website (<http://domain.example/login>) and click FYPMS link which will take you to the FYPMS login page. Enter correct and valid username and password to use the FYPMS. You can also access FYPMS by directly typing the FYPMS <http://domain.example/login> as shown in Figure 1. Provided that your device is connected to the internet, the browser will direct you to the FYPMS login page
